These statistics are by First Port of Entry and reflect where visitors enter The Bahamas and not necessarily where they stay.

Air and sea arrivals to The Bahamas peaked in 2019 with 7.2 million visitor arrivals but in 2020, the COVID-19 pandemic hit the island nation and made it impossible to reach that target in 2020.

Cruise Arrivals

- Royal Caribbean Cruise Lines resumed service in The Bahamas on June 12, 2021 (Cruise and Maritime Dept. Bahamas Ministry of Tourism, 2021). Moreover, RCCL and Crystal Cruises temporarily homeported with a couple of their ships in The Bahamas during a few months of 2021.
- The Bahamas did not receive any cruise arrivals in April, May, June, August, September, October, November, December 2020 and January 2021 as the Cruise and Ferry Industry had not yet resumed service to The Bahamas. In July 2020, one ship came into the destination with cruise arrivals.
- Most of the cruise ports in The Bahamas had not yet opened for service in the early months of 2021 but by March 2022 they were open again.
- Cruise arrivals (first port of entry) for March 2022 were up because most of the major cruise lines had already resumed service to The Bahamas and there had been very few cruise arrivals for the same period of 2021. Royal Caribbean Cruise lines, Carnival Cruises, Celebrity Cruises, and Norwegian Cruises, had resumed service to The Bahamas after more than a year of absence due to the global pandemic, and other cruise lines had also done the same.
